Bonita Street Right of Way Acquisition

The Town of Payson was awarded Federal Highway funding through the Central Arizona Governments (CAG) to reconstruct Bonita Street between Bentley Street and Highway 87. As part of the project we need to obtain several pieces of right of way in order to construct the desired improvements. The current plan is to go to construction on this project in Mid-2017.

The Arizona Department of Transportation (ADOT) is the project manager for this roadway improvement. They have hired a consultant to work with the property owners to obtain the necessary right of way. This is the second batch of documents the consultant has provided to the Town in order to get the right of way in plane. Once approved by the Town, the documents will be sent to Pioneer Title to finalize the property acquisition and record the deeds.
