### **Important Message from the Town of Payson**

The Town of Payson is taking proactive measures to reduce the transmission of COVID-19, commonly referred to as Coronavirus. These measures are being implemented out of an abundance of caution. We thank you for your cooperation in promoting the well-being of community residents, staff, and volunteers.

All Town facilities remain staffed, however in-person services will be limited beginning March 13<sup>th</sup> until the risk subsides.

The **Library, Community Development/Public Works Building,** and the **Parks, Recreation & Tourism Office** will be closed to walk-in traffic. Assistance will be available via phone and electronic means.

The **Police** Department will not be providing fingerprinting services during this time. Complaints and reports will be taken telephonically whenever feasible.

The **Fire** Department will not be providing battery/smoke detector assistance, lock outs, ride alongs or station tours. Requests for permits issued by the Fire Department must be initiated by phone.

An information line has been established to keep residents informed about changes and to answer questions about our operations as they relate to COVID-19. The number to call is (928) 474-9260.

Please help reduce the spread of illness by following the Center For Disease Control's advice. Links will be provided on the Town of Payson website, Facebook page, and at Town Buildings.
