MEMO

TO: Mayor and Council

FROM:  Jerry Owen, Community Development Director

DATE:  June 22, 2006

SUBJECT: P-324-06; Request from Bill and Emily Preece and Maria Bleicher, landowners, and Aero Development L.L.C., agent, to amend the Town of Payson General Plan on a 51.6 acre site located north of the Payson Airport from its current designation of "Employment" to "Rural Residential" which is defined as one residence per 1 to 4 acres. The site is located northeast of the Airport and is identified as Assessor Parcel Numbers 302-23-031, 302-23-029 and 302-23-026B.

Based on the discussion at the June 8, 2006 public hearing, staff notes the following:

- The Federal Aviation Administration (FAA) letter of March 16, 2006 states: "...we must express our opposition to the proposed amendment.."; and "The Town of Payson must do everything in its power to foster compatible land use and prevent incompatible land uses, such as the proposed project, from occurring"; and "We hope the Town will take our comments and concerns into consideration and not approve the proposed amendment to the General Plan for the 51-acre site next to the Airport."

The FAA is the agency that funds 95% of the cost of Airport-related projects, including the recent re-alignment of Airport Road. It may be prudent to follow the recommendation of the FAA's Airports Compliance Specialist in this matter.

- Written responses from outside agencies including the U.S. Forest Service, Central Arizona Association of Governments (CAAG) and Payson Regional Economic Development Corporation all oppose this proposed amendment.
- The Town of Payson Planning and Zoning Commission recommended **denial** (4-2). The majority felt that the site could be developed for employment uses, albeit not large warehouse-type buildings and that this proposal would compromise the future use of the employment area to the west based on future residents concerns about traffic and noise.
