RE: Update on Trails Master Plan & Community Trails Network Plan Development for January 4 Council Meeting

---

The Parks and Recreation Department will be presenting a status report on the Trails Master Plan & Community Trails Network plan development that Town Personnel and Trails Task Force members have been working on since the Council's unanimous vote to support implementation of the Community Trails Network in CDR format on 11/2/2006.

The presentation will briefly cover the background and process over the last 60 days made by Town Personnel and Trails Task Force members, but will focus mainly on what priorities the groups have jointly set to begin immediate implementation of the Trails Master Plan, incorporating the Community Trails Network additions.
