To: Design Review Board

I regret that I will no longer be able to continue as a member of the Design Review Board. My mothers health issues are starting to take me away from my business often, which means that I can't afford any extra time away.

Because we have not yet replaced Marcel, it means that if one of the board members are absent there will not be a quorum. If this happens when a customer needs our input, please call me and I will come down to hear the proposal and cast a vote. Hopefully the council will be able to appointment new board members soon.

I have enjoyed my time with all of you, and wish that I could of continued.

Sincerely,

Mareena Cords
