Filed by: Town of Payson
Location: Could affect all of Payson
Purpose: To amend the Unified Development Code provisions pertaining to the parking of trailers or recreational vehicles (RV's) on residential lots and rights-of-way areas.

Sheila DeSchaaf, Zoning Administrator, summarized the staff report. Exhibit B shows the proposed amendments.

Vice-Chairman Swenson opened the public hearing.

A member of the audience asked for clarification regarding RV parking on the streets within a homeowners association. Commissioner Scheidt replied that the Town recognizes a homeowners association but only enforces the Town ordinances.

Another member of the audience asked if there should be more wording in B.7 of the proposed amendments to include landscaping issues. He also had concerns with people understanding where the lot lines were on any piece of property.

Sheila DeSchaaf, Zoning Administrator, stated that an illustration could be included in the proposed amendments.

It was noted that landscaping was not part of this proposed amendment only the parking of RV and trailers in the right of way.

The difference between the term easement and right of way was explained.

A member of the audience asked how to obtain a right of way permit. LaRon Garrett, Deputy Town Manager, explained the process.

Vice-Chairman Swenson closed the public hearing.

There was further discussion by the Commission regarding the length of a trailer or RV to be parked in the unimproved portion of the right of way and parking distance from any parcel owned by someone other than the property owner or lessee.

Tim Wright, Town Attorney, suggested an alternative motion to include the renumbering to clarify that parking is allowed on private property; 40' in length for first blank; 5' for second blank; subsection e alternative #1; and to direct staff to include an illustration in the definition section of right of way.

Motion: Recommend to the Town Council approval of P13-001, an application to amend the Unified Development Code provisions pertaining to the parking of recreational vehicles and trailers in conjunction with residential uses as recommended by staff in Exhibit B with the following changes: 1) to reorganize 9 a and b into a single element; filling in the blanks of the current item d. to be 40' in length; subsection three (3) of d to be 5'; alternative #1 in section e; and the inclusion of a sample illustration showing what right of ways look like.
